Attachments: sampling results from AltEn

Thanks Scott. There was some discussion on this point on the call with NDEE at 11:30. I think these are different than the ones I sent Doug Saturday (attached here). Sounded like between feedback from Mike B's shop and prior sampling, they were on track to get analytes nailed down this afternoon.

Has the regulatory lead been determined?

Subject: FYI - ANALYTICAL PERAMETERS DISCUSSION- Previous ALTEN test results (from South Dakota Lab)

Hello:

Doug and I had a discussion about potential tests for the samples collected this past weekend. Attached are results from a sampling event at/near the facility (but not the material from the digesters). I have not taken the time to really review them. Sorry.

I had a briefing this morning, another is planned for this afternoon. I am still not certain if the "regulatory lead" has been determined.

Thank you again for your assistance. Thank you for your patience.
